† Year ended 31st May.

‡ Operative from February.

2. Wage and Salary Earners in Civilian Employment in N.S.W. Government and Private

(Excluding Rural Workers, Females in Private Domestic Service, and Defence Forces)

Notes:—

1. The estimates of employment given in Tables 2 and 3 are derived from three main sources:—

- monthly employment in factories, as recorded in the annual factory censuses;
- monthly returns from governmental authorities; and
- monthly returns supplied by employers for purposes of Commonwealth pay-roll taxation.

These are supplemented by some other direct records of monthly employment (e.g. hospitals) and by estimates of the number of employees outside the scope of the main sources.

The numbers of factory employees shown for months subsequent to June, 1959 are estimates which are subject to revision in the light of the results of the factory census for 1959-60.

2. Workers in rural industry, females in private domestic service, members of the full-time defence forces at home or abroad, and National Service Trainees in camp are excluded.

3. The estimates are designed to measure monthly *trends* in employment in the defined field. They are compiled on an establishment or enterprise basis, and therefore do not cover exactly the same area of industry as the industry tabulations compiled on the occasion of a population census from the schedules provided by individuals.

* Including miscellaneous groups (75,500 males, 13,200 females, 88,700 persons in July, 1960) not shown in the table.

† Includes Education, Health, Law, Hotels and Restaurants, and other Professional and Personal Services.

4. Employment in Larger Private Factories, New South Wales

In order to provide a prompt indication of the trend of employment in private factories, a survey of employment in 736 of the larger private factories in New South Wales is made at the end of each month, by joint arrangement between the Secretary of the Department of Labour and National Service and the Commonwealth Statistician. Approximately half of total factory employment is covered by the collection, the results of which are usually available one month earlier than particulars of total factory employment shown in Table 3.

* Includes Australian Capital Territory.

† Excludes pay of members of the armed forces.

‡ Total wages divided by total civilian employment expressed in male units. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings.

Note. Comparisons as to trend should be made for complete years or corresponding quarters. The quarters are affected by seasonal influences.

9. Population, Migration, Births, Deaths, and Marriages, New South Wales

Note. The estimated population for periods since the Census of 30th June, 1954 represents the population ascertained at the Census plus the subsequent natural increase and recorded net migration into New South Wales. These estimates are subject to revision when the population is ascertained at the next Census.

Period	Estimated Population at end of Period			Net Immigration	Live Births	Total Deaths	Deaths under 1 Year	Marriages

* Excludes car, motor cycle, tractor, and aero engines.

† Includes body portion of mono-constructed vehicles, but excludes cabins and conversions.

‡ With active constituents of soap only or mixtures of soap and alkali.

¶ All synthetic detergents, wetting agents, and mixtures of soap and/or alkali and synthetic detergents.

§ Starting, lighting, and ignition.

|| Includes wire stretchers and box spring mattresses.

BUILDING ACTIVITY IN NEW SOUTH WALES

Note 1. "Value" represents the estimated cost of the building when completed (exclusive of the land).

2. Building is classified as "government" or "private" according to ownership.

3. The value of building approved is, for private building, the value of permits issued by local government authorities to build in that part of the State (covering all municipalities and the larger residential areas within shires) subject to building control by local authorities; and for government building, the value of contracts let or work commenced and day labour projects authorised by governmental authorities.

4. Some building in rural areas is excluded.

30. Value of Private and Government Building* Approved : Area of State

39. Retail Trade : Value of Retail Sales in N.S.W.

The figures shown below represent the sales of goods (as distinct from services, repairs, accommodation, entertainment, meals, etc.) by establishments selling retail goods from fixed premises, and include the retail sales of establishments principally engaged in wholesale, manufacturing, or servicing activities. The figures are estimates based on sample surveys.

* Since 1st October, 1951, 15 trading banks have conducted business in Australia. They comprise 7 major private trading banks and the Commonwealth Trading Bank (which operate in all States), and 7 other banks (including the Rural Bank and 3 other banks in N.S.W.) which trade mainly in particular areas.

† Excludes deposits with short-term money market.

‡ Seasonal Treasury Notes were first issued in November, 1959.

§ Major Private Trading Banks and Commonwealth Trading Bank.

47. Trading Banks : Debits to Customers' Accounts, New South Wales

"Debits" refer to all trading banks operating in N.S.W., excluding accounts of Australian Governments at City banks and central banking business of the Reserve Bank.

* Weighted average rate on first mortgages registered, where mortgagee is a corporation (other than a bank or a building society), or an individual. Mortgages taken by Government Agencies are excluded. Average for year or for 3 months ended month shown.

† Compiled by Commonwealth Bank; average of yields on last Wednesday in month. Yields on 2-year securities have been estimated from yields on securities maturing in less than 5 years; those on 12-year securities, on securities maturing in 10 or more years.

‡ Rate current at end of period.

¶ The limit was £1,300 until April, 1942, £1,000 from April, 1952 to June, 1954, £1,500 from June, 1954 to November, 1958, and £2,000 from November, 1958.

51. Index of Prices of Shares on Sydney Stock Exchange

This index relates to ordinary shares of the principal companies (excluding banking companies) listed on the Sydney Stock Exchange whose business in New South Wales is extensive. The prices of individual shares are unweighted, and each group average is the mean of the average monthly prices per £1 of paid-up capital. The aggregate index is the average of all the shares included in the groups with the addition of 34 miscellaneous shares. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made for changes in capital structure.

* Non-ferrous—Silver, copper, tin, zinc, lead.

† Beef, lamb, mutton, pork. Guaranteed minimum prices are used when operative.

‡ Includes also sugar, dried fruits, tallow and hides.

§ Percentage distribution of base aggregate for "All Groups", (a) including Gold and (b) excluding Gold.

¶ Nominal.

57. Wholesale Price (Basic Materials and Foodstuffs) Index

Commodities are priced in their primary or basic form wherever possible. Prices are drawn mainly from Melbourne sources. Apart from locally produced building materials, and one or two minor commodities, the price movements may be taken as representative of variations in wholesale prices of basic materials in most Australian markets.

Base : Average 3 years ended June, 1939 = 100

† Current series linked to former series, at January, 1947 for U.S.A., at 1955-56 for Sweden, and at 1958 for New Zealand.

‡ Base : 30th June, 1949 = 100.

§ Basic materials (excluding fuel) used in non-food manufacturing industry.

¶ All manufactured products other than fuel, food, and tobacco.

** Base : 1949 = 100.

†† Base : Year ended August, 1939 = 100.

59. Consumer Price Index

Notes:—

1. For current statistical purposes, the Consumer Price Index replaces both the "C" Series Retail Price Index (first compiled in 1921) and the Interim Retail Price Index (constructed as a transitional index in 1954).

2. The Consumer Price Index measures variations in prices of commodities and services as affecting a high proportion of the expenditure of wage earner households. Changes in the pattern of this expenditure since 1950 have been reflected in the Index by the introduction of additional items and altered weighting patterns. The new Index is more comprehensive than the earlier indexes.

Base of each Index: 1952-53 = 100.0

* For State Awards, the amounts shown to February, 1959 represent the basic wage together with so much of any margin and any further amount necessary to make the minimum wage payable equivalent to 75 per cent. of the basic wage for males. Following the increase in the basic wage to the 75 per cent. equivalent, the amount shown from February, 1959 is the basic wage exclusive of any margin. This change was applied in State Awards from different dates, beginning in March, 1959.

† Quarterly adjustments for movements in retail prices were suspended in September, 1953, in both Commonwealth and State Awards. They were restored in State Awards in November, 1955.

61. Weighted Average Minimum Weekly Wage Rates, N.S.W.

Notes:—

1. The indexes of minimum wage rates embrace a representative range of occupations and are based on the occupation and industry structures in 1954. The wage rates used in the indexes are the rates payable for a full week's work (excluding overtime), as prescribed in the relevant industrial awards, determinations, and agreements. The rural industries are excluded from the indexes.

2. The money amounts shown should not be regarded as actual current averages, but as an index of changes expressed in money terms.

* Base: Weighted average for Australia in 1954 = 100.

† Excludes Mining and Quarrying, and Building and Construction.

CONSUMER PRICE INDEX

NOTES:-

1. For current statistical purposes, the Consumer Price Index replaces both the "C" Series Retail Price Index (first compiled in 1921) and the Interim Retail Price Index (constructed as a transitional index in 1954).
2. The Consumer Price Index measures variations in prices of commodities and services as affecting a high proportion of the expenditure of wage earner households. Changes in the pattern of this expenditure since 1950 have been reflected in the Index by the introduction of additional items and altered weighting patterns. The new Index is more comprehensive than the earlier indexes.

Base of each Index: 1952-53 = 100.0

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS
NEW SOUTH WALES OFFICE

PUBLICATIONS

The publications listed below are obtainable from the Deputy Commonwealth Statistician, 428 George Street, Sydney. In addition to these publications, the Deputy Commonwealth Statistician issues a number of mimeographed publications, particulars of which may be obtained on application.

In the Official Year Book of New South Wales, the statistics of the State are explained and analysed and information is given about their legislative and administrative background. The Year Book is prepared in Parts (which may bear different numbers from year to year), each of which is issued separately as printed; the Volume is issued when all the Parts have appeared.

* To compensate in part for steep rises in costs, it has become necessary to increase the prices of statistical publications. The new prices will apply to the 1959 Volume and the 1960 Parts of the Official Year Book and to all other publications first issued after 30th September, 1960. The column "New Prices" shows the complete range of the new prices.
